Disk Sorter Ultimate is a very simple application that does what it says on the tin. It will help you to sort any directory/ folders in your hard drive. There are many options to choose from, allowing you to sort with different attributes. Disk Sorter Ultimate ... Regain control over your iTunes playlists and organize them into folders, time-based libraries, events and collections.

Your playlists can be automatically imported from your iTunes library and organized into libraries, where they can be viewed in a sidebar, organized in a neat way. The user interface is very intuitive and even those with no previous experience should be able to find their way around it. Regular expressions

One of the most outstanding characteristics of Disk Sorter Ultimate is that it is both a playlist organizer and a list of all items contained in playlists. The interface is made of a sidebar for displaying the playlists, while the list of items is organized in columns, each containing a different item. List of items You can search the playlist by artist name, title, genre and playlist name. Furthermore, regular expressions can be used to classify all items in the list. Viewing playlists The sidebar is the only place where you can view the playlists you have created. You can drag items from the list of items to different columns and use the option "Create new playlist" to create a new playlist. Create playlists Alternatively, you can create a new playlist by dragging the items from the list of items to the playlists area. It is possible to create all types of playlists, including ordered lists and collections. You can use the filters in the sidebar to add, remove or rearrange items on the basis of their content. Import playlists You can also download playlists from your iTunes library and organize them in Disk Sorter Ultimate. These playlists can be imported as regular playlists, time-based libraries, events or collections. Due Date You can view playlists in intervals on the basis of their due date. This enables you to see at a glance how many items you have left to go in each playlist. Color coding You can color code all items in the list. Disk Sorter Ultimate can even handle playlists with multiple artists, having more than one item in each playlist for the same artist. Automatically create playlists Disk Sorter Ultimate can organize playlists without your intervention. When it encounters a new playlist in your iTunes library, it will create a corresponding
